PROFILE

Experienced Python Django Developer with hands-on experience in building and maintaining web applications, REST APIs, and backend systems. Skilled in Django, Django REST Framework, SQL, Celery, Redis, and AWS-based deployments. Strong understanding of database management, API integration, debugging, and performance optimization. Passionate about developing scalable applications and learning new technologies.

EMPLOYMENT HISTORY

Senior Software Engineer at Beinex Consulting, Kochi

Nov 2021 — Present

- Developed and maintained scalable web applications using Python and Django.
- Worked on client customization projects by developing and modifying application features based on business requirements.
- Designed and implemented RESTful APIs using Django REST Framework for frontend and third-party integrations.
- Developed high-performance backend APIs using FastAPI.
- Developed a reusable Python package for handling task management and scheduling functionalities for project management applications similar to Jira.
- Automated workflows and approval processes using Microsoft Power Automate.
- Implemented authentication, authorization, and role-based access control for enterprise applications.
- Participated in code reviews, deployment activities, and application optimization.

Associate Supervisor at Ecom Express, Aluva

Jul 2020 — Oct 2021

- Created efficient work schedules for each team member to maintain deadlines and keep shifts properly staffed.
- Organized and prioritized work to complete assignments in a timely, efficient manner.
- Executed superior planning skills.
- Worked well independently and on a team to solve problems.
